The NHADA is the state professional organization for all athletic directors in New Hampshire and associates. The organization provides services and opportunities for professional development and networking among its members. Each year in May, we sponsor a major state conference for our members. We offer NIAAA Leadership Training Courses as well as pertinent seminars and workshops. The NHADA works closely with the New Hampshire Interscholastic Athletic Association (NHIAA) in establishing policies and guidelines for the state athletic programs.

The mission of the New Hampshire Athletic Directors Association is to provide professional development opportunities and personal growth for its members through the support and promotion of "educational values" in interscholastic activities. Through association membership we provide the opportunity to participate and provide outreach to others in the field. We emphasize quality in all operations provided to the membership through our relationship with the NIAAA and encourage participation in Leadership Training Courses and the Certification Program for preparing athletic administrators to meet their professional challenges. ~ NHADA Constitution

Athletic Administrators consistently contribute the longest days among staff members in our nation's school districts. The second workday begins when the regular school day ends, and what has been planned, organized and implemented by the athletic administrator goes into action. Whether an athletic administrator, assistant principal in charge of athletics, director of athletics, coordinator, activity/athletic director, liaison or supervisor; there is a delicate balance among profession, personal time, and family, as the 'AD' provides student participation opportunities within education-based athletic programs.

As we lead, each day in school communities helping build tomorrow's future, each of us understands and relies on such qualities as integrity, credibility and competence as we share the same mission. These practical, yet personal strengths are ones that assist in determining in what areas we will rely on, share experiences, and devote time and energy.

The NIAAA champions the profession of administering athletic programs in our nation's high schools and middle schools. No other body values, promotes, preserves, supports and stands ready to uplift the cause of the athletic administrator, as does the NIAAA. Providing education, leadership and service platforms allows the NIAAA to best help colleagues network, choose from resources, draw from practices and give back to your profession while advancing in one's career. ~ NIAAA.org Website

WHO SHOULD JOIN AND WHY?

Mission of the NIAAA

The NIAAA preserves, enhances and promotes educational-based athletics through the professional development of interscholastic athletic administrators.

The Purpose of the NIAAA

As a recognized accredited educational institution committed to leadership programs, resources, and service opportunities, the association supports the athletic administrator's effort in providing quality athletic participation opportunities for students.

If you are involved in administering interscholastic athletics at either the high school, middle school or junior high level, **or** retired from a career involving interscholastic athletics at either the high school, middle school or junior high level, **or** are a high school or undergraduate student (non-degree holding) pursuing an education in athletics administration, you should join the National Interscholastic Athletic Administrators Association. The NIAAA is a national professional organization administered by and for athletic administrators for the purpose of:

- Promoting the professional growth and image of interscholastic athletic administrators
- Promoting the development and prestige of state athletic administrators organizations which will contribute, in cooperation with state high school associations, to the interscholastic athletic program of each state
- Preserving the educational nature of interscholastic athletics and the place of these programs in the curricula of schools
